Alexandria, Virginia 22313-1450**RECEIVED**  
**JAN 09 2004**  
TECHNOLOGY CENTER R3700**DECLARATION**

The undersigned declarant has been warned that willful false statements and the like are punishable by fine or imprisonment, or both (18 U.S.C. 1001) and may jeopardize the validity of the application or any patent issuing thereon. All statements made of my own knowledge are true, and all statements made on information and belief are believed to be true. Declarant notes that the co-inventor, Michael P. Shanley, could not be reached after diligent effort, and the present declaration is submitted on behalf of myself and the nonsigning co-inventor.

The present application claims priority to a provisional application filed June 16, 2000. The declarant hereby declares that this invention was conceived prior to May 31, 2000. Following that conception, the invention and application were pursued with due diligence until filing the provisional application on June 16, 2000. The declarant is aware of facts proving such conception and due diligence, and will attempt to contact and work with Mr. Shanley to produce records substantiating the present declaration, should that become necessary.
